

# **Living Among the Alive**

Student Choreography Concert

January 22, 2021

Artistic Director: Mrs. Katie Flint

A Note from the Director:

*I would like to welcome you to the 2021 Student Choreography Concert. Just like everything this year, we have had to make adjustments to this class and pivot away from the traditional dance concert. While the virtual setting can be challenging, it has also enhanced the course's curriculum by adding in topics like site-specific work and dance for film. Our goal throughout our virtual learning has been to keep dancers dancing, choreographers creating, and the arts alive. Through all the trials, these students have worked intensely to discover and refine their choreographic voices. The students found inventive ways of creating dances at home - using solo chains, bubble groups, and unique locations. As the class came together to decide on the theme of the concert, they landed on the idea of "living vs being alive". This past year has helped these students be present in the moment, and realize they are truly Living Among the Alive. As always, thank you for supporting the arts! And, enjoy the show.*
